

Proiect Erasmus+

"Ancient Greek mathematicians today and the use of STEAM in teaching"

Erasmus+

PARTNERS:

- Peetri Lasteaed-Põhikool (Estonia)
- Szkoła Podstawowa im.M.J.Pilsudskiego (Poland)
- Gymnasio Dafnis (Greece)
- Colegiul National „Gheorghe Lazăr” Sibiu (Romania)

Activities within the Erasmus+ Project

Wednesday, 24.04.2024

Thematic trip: "Golden Ratio"

Trip to Corvin Castle and Alba Iulia town. Golden proportion was used in the construction of buildings/churches in Transylvania.

Practical applications of Thales' theorems in nature, calculating distances, heights, proportions of historic buildings near Sibiu, using digital mathematical applications.

CNGL TEAM

10th grade F students

coordinating teacher
prof. Claudia Fugaru
prof. Anamaria Bedreagă
prof. Victoria Șerban
prof. Ana Marinescu

Project coordinator: prof. Stela Negrea
