

## –THE FUTURE – POSTER COMPETITION

The students in VII B, coordinated by their English teacher, Șerban Victoria, have decided to enter a competition run by Oxford University Press, entitled The Future. They had to work in groups of 2-6 students and create posters on this topic. This is what they did:

**Group 1: Moro Alexandra, Birză Alexia, Făgețan Radu**

*In our poster we wanted to show some aspects of technology and nature in the future. We also included some interesting facts about the car of the future and about coffee beans.*

**Group 2: Goron Ana, Pozdircă Petra, Munteanu Iulia, Hălmaciu Delia**

*Our project is about moving to another planet because we won't be able to live on Earth anymore. Our new planet will be called Pandora and we'll take more care of it. We included some meaningful song lyrics in our project.*

**Group 5: Domnariu Cristina, Varga-Santai Francesca, Blezu Iosif, Popențiu Vlad, Teșosu Rareș**

*In our project we used an application called Aurasma to prove that even if the world changes a lot, people will not forget the past. They'll keep the old moments and will respect them more.*

**Group 6: Stoica Sergiu, Gheban Bogdan, Morândău Alexandru, Scutelnicu Radu**

*Our project is about how big of a problem pollution is and how we can fight against it. By polluting lakes, chopping trees and wasting water, we are destroying our future! We need to MAKE NATURE GREAT AGAIN!*

**Coordonator: prof. Victoria Șerban**
